

Mining Activity Reporting Service

Our Mining Activity Reporting Service identifies and contacts mining claim holders in areas that could impact your community's traditional territory.

Some of the core benefits of this service include:

Accessible reports identifying mining claim holders, and area occupied by claims surrounding the community.

An automated tool that locates and collects contact information from relevant parties.

A contacting service that reaches every identified claim holder with an email or letter of your choice.

The ability to be notified immediately as new claim holders emerge.

Feel free to reach out for more information about this service, and how it can be used in your community:
